Case Study

Redefining and Setting the New Standard for Project Freight Forwarding with Logiswift

logiswift Moving Forward | deugro

INTRODUCTION
LOGISWIFT-DEUGRO

DEUGRO

deugro is a highly specialized expert in project freight forwarding and logistics solutions, serving clients worldwide. The company manages complex logistics for a wide range of industries, including infrastructure, mining, metals, mobility, oil & gas, petrochemical, power, pulp & paper, and sustainable energy, including wind projects.

THE PROJECT

With numerous infrastructure development projects, **deugro** supports governments and EPC companies with project logistics. The company sought Logiswift to provide end-to-end visibility and coordination for all parts, services, and construction activities for their projects.

duegro and Logiswift partnered to create a solution that can restructure supply chain management and increase overall efficiency.

OUR ROLE

Powered by Logiswift, **deugro visiotrack** now oversees both onshore and offshore supply chains. The solution efficiently manages global suppliers, ensuring the seamless delivery of components across thousands of SKUs.

The web-based software fosters seamless collaboration among stakeholders while integrating predictive analysis for proactive decision-making. It delivers data through customizable dashboards, enabling strategic planning and informed choices.

With over 20 years of experience in the logistics industry, our team can guide you in developing your IT infrastructure, improving your processes, and building a unique IP so your business can succeed.

“We have rolled out an IT system that provides extended advantages and value creation for every client group, whether EPCs, oil and gas producers, drilling contractors, oilfield service companies, mining re-supply, power generation MRO or low-carbon energy industry.”

- Christian Arndt, Senior Vice President, Oil and Gas Logistics deugro

HOW LOGISWIFT SUPPORTED DEUGRO

Cross-Border Logistics Coordination

Coordinated cross border movement of critical inbound parts and supplies from around the world

Inventory Optimization

Managed site inventory levels to ensure timely construction and elimination of excess supply

Milestone Management

Managed critical construction milestones to ensure timely delivery

Key Deliverables

- Managed critical paperwork to streamline vendor and customs management
- Infrastructure enhancements to access roads and airports.
- Timely and efficient customs clearance.
- Managed parts safety stock levels and reverse supply chain of damaged parts.
- Managed invoice processing to streamline vendor payment and accuracy of fees incurred.
- Implemented track & trace capability of inventory movement.

SYSTEM SOLUTIONS

- Order Management
- Vendor Collaboration
- Container Booking Management
- Network Dashboards
- Customs Management
- Customer Portal
- Track And Trace Visibility
- Document Management

"As we were implementing Visiotrack during the pandemic, our on time performance was through the gutter. But what did help, was the streamlined communication by incorporating Visiotrack as our central digital platform, leveraging on increased efficiencies resulting in better time to attribute in providing solutions in a pandemic restrictive transportation market leading to improved customer satisfaction."

Mario Hess
Global Head of Customer Solutions, deugro

EFFICIENCY FROM END-TO-END SUPPLY CHAIN VISIBILITY

Increased vendor on-time delivery performance and reduced detention charges

Saved time in inventory management and control effort over the life of the project

Reduced customs delays and support staff effort through the Customs Management Solution

Eliminated subcontractor cost wasted expense

Increased team on-time performance through end-to-end visibility of parts and supplies

Increased damaged parts recovery through reverse supply chain management within the system

LOGISWIFT
FOR PROJECT LOGISTICS

Logiswift is the technology platform provider that simplifies Project Forwarding by connecting the logistics interface and third-party management. We have set a new standard for Project Forwarding by creating the smartest one-stop-shop IT service solution for the industry that covers the full cargo life cycle. Plan, source, optimize, collaborate, execute, analyze, and make the right decisions to adapt to unforeseen challenges and remote locations. We are offering the real End to End visibility the industry is looking for.

Logiswift is your key enabler for efficient and sustainable logistics.
